

# NEW PRODUCTS COMING SOON!

## Waterproof Minimeters

### 860050 Conductivity Meter

The Waterproof Water Purity (TDS/Conductivity) Meter is simple to use and engineered to deliver accurate reliable water quality measurements under any conditions its shockproof, IP67 waterproof and floats

### 860051 Dissolved Oxygen (DO) Meter

The Waterproof Dissolved Oxygen (DO) Meter is simple to use and engineered to deliver accurate reliable water quality measurements under any conditions its shockproof, IP67 waterproof and floats

### 860052 ORP Meter

The Waterproof pH/ORP (Oxidation-Reduction Potential) Meter is simple to use and engineered to deliver accurate reliable water quality measurements under any conditions, shockproof, IP67 waterproof and floats

### 860053 pH Meter

The Waterproof pH Meter is simple to use and engineered to deliver accurate reliable water quality measurements under any conditions its rugged, reliable and accurate
