Hydrion® pH and sanitizer test kits since 1934

Hydrion® Urine & Saliva pH Paper 5.5–8.0

Trusted by healthcare professionals for the fast, easy, and accurate measurement of urine and saliva pH around neutral (pH 7.0).

Widely recommended by physicians and holistic health practitioners for home use (often in conjunction with an alkalizing diet), Hydrion 5.5–8.0 Urine & Saliva pH Paper and Strips set the standard for testing and monitoring body pH. They offer easy-to-read, highly accurate, single color matches at every 0.2 to 0.3 interval from pH 5.5 to 8.0, with excellent color separation in both the acid range (below pH 7.0) and the alkali range (above pH 7.0). Economical and convenient to use for frequent testing.

- **Fast, accurate, easy-to-use**
- **Single color matches**
- **9700 Is packaged in a convenient flip-top vials**
- **067 comes in a convenient test paper dispenser**
- **Private labeling options available**
- **Made in the U.S.A..**

Cat# 9700

Case of 6 vials	Distributor pricing available	1 case

PREFERRED BY HEALTHCARE PRACTITIONERS
Many homeopathic nutritionists stress the importance of maintaining an optimum body pH range. And for the regular monitoring of body pH, no test paper is more trusted by physicians and healthcare practitioners than Hydrion (067) Urine & Saliva pH Paper. Millions of kits sold worldwide attest to the paper's quality, excellent fidelity, precise measurement, and ease of use.

NOTE: Hydrion products are not intended for the diagnosis or treatment of any disease or condition. Contact a licensed physician or healthcare practitioner before drawing conclusions about your health based on the use of urine or saliva pH tests.

HOW TO TEST BODY PH

SALIVA
- Deposit a small amount of saliva onto a clean spoon or other suitable vessel.
- Tear off a strip of test paper and dip it into the sample.
- Remove the test paper strip and immediately compare it to the color chart.

URINE
- Collect a sample in a clean vessel.
- Tear off a strip of test paper and dip it into the sample.
- Remove the test paper strip and immediately compare it to the color chart.
