

Hydrion® Quat Test Papers (QT-10, QT-40, QC-1001)

A quick, reliable, easy-to-use, way to test quaternary ammonium-based sanitizers in food-service establishments, as required by federal, state, and local food safety codes.

Hydrion Sanitizer Test Papers have been trusted worldwide for nearly 40 years to test the concentration of quaternary ammonium-based sanitizer solutions. We offer three types of Hydrion Quaternary Test Papers that measure the concentration of quaternary ammonium compounds in food-industry sanitizer solutions: QT-10 is formulated for 2-chain quat compounds with measurements in the range of 0-400 parts per million (ppm), QT-40 is for 4-chain quats, 0-500 ppm, and QC-1001 is for high-range 2-chain quats, 0-1000 ppm.

- A quick, simple, reliable way to meet federal, state and local food safety guidelines
- Trusted by health agencies around the world for mandatory sanitizer testing
- Made in the U.S.A.
